Special note to sponsoring teachers:

**All directors registering students will be required to judge or work in some other capacity at the Region and at the All-State Final Auditions unless released in advance by the Region or All-State Chairman. Students attending the school(s) of those directors refusing to work in some capacity will be ineligible to audition and will forfeit the registration fees. Any director who leaves the audition site without permission from the chairman will have the audition results of the student from the school(s) at which he teaches removed from the audition process. Students who attend the school(s) at which this director teaches will forfeit their audition fees and lose the right to participate in the Region or All-State audition process for the remainder of the school year. It should also be noted that in schools with two or more directors, that ALL directors and assistants must comply with these guidelines in order for students from the school to remain eligible to compete in the audition process.*
